

WAY TO GO HEALTHY KIDS

AFTER SCHOOL SPANISH IMMERSION PROGRAM (ASSIP)

DAILY SCHEDULE

MONDAY

FIESTA EN LA COCINA

FUN in the Kitchen

Every Monday children will complete a hands-on activity related to food. From baking, to decorating and preparing a complex meal or simply reading and coloring something about food, we will make it a FIESTA time where children can build their Spanish food vocabulary and learn about food traditions from countries around the world.

TUESDAY

NATURALEZA EN ACCION

Nature in Action

On Tuesdays, we will discover the beauty of nature and how we can help to save our beautiful Earth. As always, we will continue to reinforce messaging about the importance of recycling and water and energy conservation. We will complete art projects, learn about animals, plants, planets, and more. Some Tuesdays, we may go on field trips to reinforce what we've learned in class.

WEDNESDAY

A JUGAR EN ESPANOL

Lets play in Spanish

Playing is Wednesday's focus where we will foster teamwork by playing indoor and outdoor games. Sports, simple gymnastic movements, fitness, dancing, and more will be the main activities to keep children moving. We will practice a dance to be performed later in the year, date TBD. Some days children will have the option to choose which game or activity they would like to do. We will also include some quiet activities from time to time, like legos or other games.

THURSDAY

ARTE

Art Projects

Students will build a portfolio with different forms of art. Watercolor, oil, pastels, collages, ceramics, finger-paint, sand, shells, wood, and recycled objects will all be used to create ARTE. We will also learn about art traditions from Spanish speaking countries and travel throughout the world to create amazing pieces to be displayed in our first Way to Go GALERIA DE ARTE. An extra fee may be requested for special projects or field trips.

FRIDAY

LECTURA Y DRAMA

Reading and Drama

During this time, children will be exposed to different children's books and stories. They will have an opportunity to create their own story booklet too. We will also create short skits where they can express and demonstrate better vocabulary and language development. From time to time they will watch a movie in Spanish. Our group will also create their own video movie by the end of the session.
