## PROFILE

I'm originally from Pucallpa, a city in eastern Peru, and I graduated from Universidad Nacional de Ucayali with a degree in teaching and a specialty in Natural Sciences. I taught for three years subjects such as Biology and Chemistry to a variety of age groups. I moved to California in 2019 to marry mi Fiancé. In my spare time, I like to give massages and watch K-dramas with my friends. I am very excited to be a teacher this summer at Way To Go Camp.
