PROFILE

I have a degree in Early Childhood Education, and I am currently working towards my teaching credential. This will be my second summer at Way to Go, and I am on staff at Los Altos Christian Schools during the academic year. Prior to coming to LACS, I have worked with children ranging from infants to 8th grade. Outside of work, I love to cook and read, and I am actively serving in children's ministry at my church. I am super excited to see what God has in store for us!

OBSTACLE COURSE TRAINING

PROFILE

I have been working with children for over 17 years. Most of my experience have come from teaching sports and running summer programs for different camps. I have been the LACS middle school PE teacher for the past 4 years. Since I introduced obstacle course training to the PE program, it has been a major hit. Children tend to workout harder and generally don't complain as they do in other sports. I am in the process of obtaining a certification in Obstacle Course Training and a Degree in Film Production. I recently had my first podium finish in the Elite Category at a Spartan Race and plans to get many more. My mission is to take kids from any level of physical ability and transform the way they think and perform. Kids will build confidence in themselves and get stronger in all aspects of life through this style of training. If they play other sports, this training will boost their strength and endurance guaranteed. Aside from working with kids, I love traveling with my wife and finding beautiful places in nature. My three favorite places in the world are Disneyland, Hawaii and Yosemite.
